NEW Herbal Essences Tousel Me Softly Collection, infused with fragrant violet essences, gives you beautifully free-flowing tresses like the stars in Hollywood are wearing this season.

## STEP 1 PREP

Wash with Tousel Me Softly Shampoo to cleanse hair without stripping essential oils, then use Tousel Me Softly Conditioner to lightly condition and help protect hair from heat styling. They work together to provide a lightly moisturized base to set the style.

**Touch Hold™** technology gives you soft hold for touchable touselles from wet to set!

## STEP 2 CUSTOM STYLE

**Fine hair?** Apply Tousel Me Softly Mousse to the roots and work it through your hair. **Medium/thick hair?** Mist Tousel Me Soft Spray Gel all over your hair. **Frizzy hair?** Use Tousel Me Softly Crème to control frizzies or give hair a little extra conditioning.

Comb through with a wide-tooth comb. Lean your head to the side, and blow-dry with a basket diffuser for more volume in the middle and ends of your hair. Flat iron in 2-inch sections, wrapping hair around the iron like you'd do with a curling iron. Hold 5 seconds and release.

## STEP 3 TOUSLE!

# STARS AT THE TORONTO INTERNATIONAL FILM FESTIVAL

*From George Clooney to Penélope Cruz to Drew Barrymore, this year's Toronto International Film Festival will be a star-studded event as Hollywood's hottest stroll into town to premiere their latest films.*

**Natalie Portman** stars in the film *Love and Other Impossible Pursuits*, which will have its world debut at the fest; Portman will play a role she knows well, a Harvard grad student. This will be a dramatic role for Portman, as she plays a mother who loses her newborn child and must deal with grief and relationship consequences.

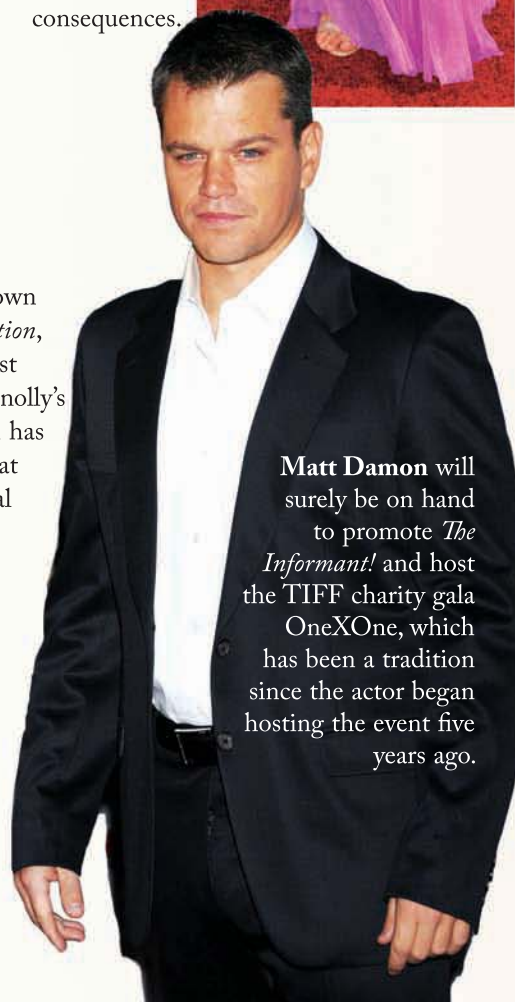

**Abbie Cornish** will be in town to promote her film *Bright Star*, which debuted in Cannes, about the affair between English poet John Keats and his love Fanny Brawne, which sadly ended when Keats died of tuberculosis.

**Jennifer Connolly** will be in town for the world premiere of *Creation*, a drama about evolution theorist Charles Darwin, played by Connolly's husband Paul Bettany; the film has nabbed the opening night slot at this year's Toronto International Film Festival.

**Megan Fox** will no doubt be strutting her sexy stuff while she's in town, promoting the Diablo Cody (*Juno*) thriller *Jennifer's Body*, in which Fox's character preys on high school boys.

**Matt Damon** will surely be on hand to promote *The Informant!* and host the TIFF charity gala OneXOne, which has been a tradition since the actor began hosting the event five years ago.

GO TO **tribute.ca** FOR EXCLUSIVE INTERVIEWS WITH THE STARS AND UP-TO-DATE FILM FESTIVAL COVERAGE.

Toronto's **Michael Cera** will be in town to promote *Youth in Revolt*, which follows his character Nick's quest to win the heart of Sheeni and hopefully lose his virginity along the way.

**Ewan McGregor**, who told *Tribute* recently how much he loves Toronto, will be in town to promote *The Men who Stare at Goats* along with George Clooney.

**Penélope Cruz** will premiere the Spanish film *Broken Embraces*, directed by her longtime pal, Pedro Almodóvar.

**Jennifer Garner** stars in the comedy *The Invention of Lying*, which premieres at the fest. The film also stars Ricky Gervais, Rob Lowe, Jonah Hill, Tina Fey and Jason Bateman.

The gorgeous **Charlize Theron** will be in town to promote two of her films: *The Road*, starring Viggo Mortensen, and *The Burning Plain*, of which she is also a producer.

**Drew Barrymore** will present her directorial debut at TIFF with the film *Whip It*, starring Canada's Ellen Page, who plays a rebellious Texas teen who throws in her small-town beauty pageant crown for the rowdy world of roller derby.

**George Clooney** always causes a stir when he comes to Toronto. He'll be here to promote his dark comedy *The Men who Stare at Goats*, in which he plays a man who claims to be part of an experimental U.S. military unit, a legion of "Warrior Monks" with unparalleled psychic powers who can read the enemy's thoughts, pass through solid walls and even kill a goat simply by staring at it.

## THERON

BIRTHDAY: August 7, 1975

HOMETOWN: Benoni, Gauteng, South Africa

SOCIAL STATUS: In a relationship with actor/producer Stuart Townsend

**CHARLIZE THERON** doesn't just walk a red carpet, she *owns* it. Whether she's dressed down and dirty as a blue-collared factory worker (*North Country*) or portraying a deranged serial killer (*Monster*), the Oscar-winning star has that certain It factor that lights up the big screen.

In fact, Theron is one of those women we envy. Her amazing green eyes, along with her 5'10" statuesque body, have the power to make any man weak in the knees. (Forget it, guys, she's in a happy relationship with actor Stuart Townsend.) Her looks are also what prompted her career, something she's not ashamed of. "I think of myself as a highly sexual creature," Theron has said. "I have to use that. I have no choice. I like it. I didn't grow up with a mother telling me what was under my clothes was bad or evil."

Theron left her hometown of Benoni, South Africa at the age of 16 after winning a modeling contest. After a few modeling stints in Milan, she moved to Los Angeles, where it didn't take long until she was discovered and the rest of Hollywood fell in love with her. Appearing in films such as *The Devil's Advocate*, *The Cider House Rules*, *Sweet November* and *The Italian Job* helped prepare her for one of the biggest honors she could achieve as an actress: an Oscar. Winning the Academy Award for Best Actress for playing serial killer Aileen Wuornos in *Monster* put her at the top of Hollywood's A-list.

Aside from her beauty contract with luxe line Dior, Theron has also dived into the role of producer on the films *The Burning Plain*, *Sleepwalking* and *Monster*. But that aside, Theron has no plans to switch to a career only behind the scenes. Up next for the talented actress is a role in *The Road*, based on the Pulitzer Prize-winning novel by Cormac McCarthy. Theron plays the wife of a man (Viggo Mortensen) who embarks on a nightmarish road trip after a nuclear explosion in an attempt to transport his son to safety while fending off cannibals. In *The Burning Plain*, she stars as Sylvia, a beautiful restaurant manager whose cool, professional demeanor is rocked when a stranger from Mexico confronts her with her mysterious past.

## BECKINSALE

**BIRTHDAY:** July 26, 1973  
**HOMETOWN:** London, England  
**SOCIAL STATUS:** Married to director  
 Len Wiseman

**KATE BECKINSALE** is a textbook English beauty: flawless skin, tea rose cheeks, and a lovely, toothy grin. Thus, her first high-profile role, as a nurse in *Pearl Harbor*, seemed a little too predictable for some. “All they saw was this Chekhov-reading Brit who had, as they saw it, no edge. I tried hard to prove otherwise,” Beckinsale has said.

When she starred in 2003’s *Underworld*, a dark thriller rife with vampires and other creatures of the night, Beckinsale found her acting groove—and true love. “Yep, I fell in love with the director,” she told *UK Elle*. Beckinsale and Len Wiseman have been married since 2004; he helps her raise her daughter Lily, whom she had with actor Michael Sheen in 1999, and they live in Los Angeles.

In 2004, Beckinsale played the heroine in another vampire film, *Van Helsing*. “Women in action movies should be applauded more than men, because we do everything in heels and a tight bra and a corset,” Beckinsale told *Telegraph Magazine* while on a press junket for the film.

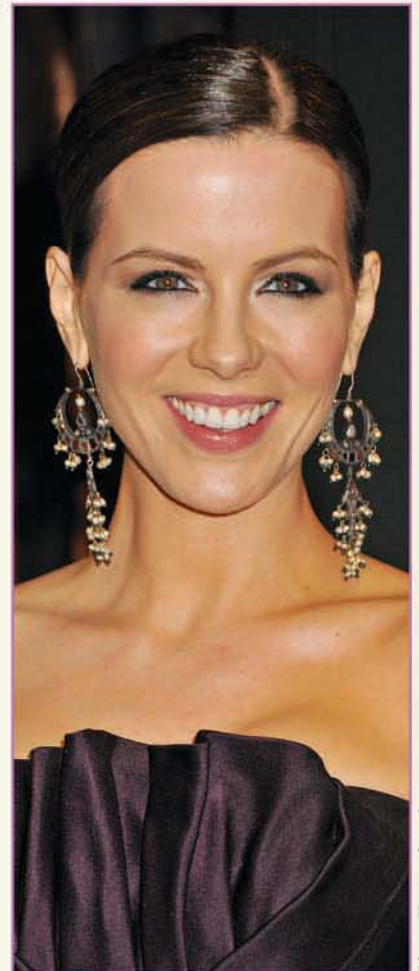

Beckinsale opted for comic relief in 2006 with *Click*, starring Adam Sandler, then jumped back into the world of vampy action with *Van Helsing*. In 2007, she appeared alongside Luke Wilson in the horror-thriller *Vacancy*, and also starred in the drama *Snow Angels*. In 2008, she played an ambitious reporter in the drama *Nothing But the Truth* and capped the year with *Underworld: Rise of the Lycans*.

Beckinsale’s most recent film, *Whiteout*, is a thriller that sees the actress take centre stage. She plays a U.S. deputy marshal who must single-handedly investigate a murder within three days, before the brutal Arctic winter begins.

## GARNER

BIRTHDAY: April 17, 1972  
 HOMETOWN: Houston, Texas  
 SOCIAL STATUS: Married to Ben Affleck

**JENNIFER GARNER** is a study in contrasts: gorgeous girl-next-door who tamed bad boy Ben Affleck, dedicated mom who does her own Hollywood stunts, and wholesome romantic comedy star who can transform into a silver screen vixen, too.

Once best known as CIA agent Sydney Bristow in the TV action-drama *Alias*, Texas-born Garner turned heads in 2003 as leather-clad Elektra Natchios in *Daredevil*. She and Affleck were drawn together on set—they met while filming *Pearl Harbor* in 2000, while she was still married to Scott Foley. (During a *Daredevil* press event, Garner said, “Snogging Ben Affleck is a pleasure, and if he showed up right now I guess we could show you how good we are at that very thing.”)

Garner and Affleck have been married since 2005, and have two daughters: Violet, 4, and infant Seraphina. So what’s the only problem with her perfect life? The paparazzi. “It just nips away at anything you’re doing, the small pleasures,” Garner once told *Marie Claire*. “I would give just about anything to make it go away.”

Since 2004, Garner has flipped between romance and action with *13 Going on 30*, *Elektra* (a *Daredevil* spin-off), *Catch and Release*, *The Kingdom* and *Juno*.

Her most recent rom-com, *Ghosts of Girlfriends Past*, saw her team up with Matthew McConaughey. “We got along easily from the beginning,” Garner told *Buzzine.com*. “I’m very much myself around him.”

Garner’s latest film, *The Invention of Lying*, was written and directed by comedic guru Ricky Gervais (*The Office*, *Ghost Town*), who also stars. It’s set in an alternate Earth where the world’s first lie causes all manner of hilarity and adventure. “There are three things I look for in a movie,” Garner told *Moviesonline.com*. “The script, the director, and the co-star.” Looks like she found a triple threat with this project.

## DIAZ

BIRTHDAY: August 30, 1972  
 HOMETOWN: San Diego, California  
 SOCIAL STATUS: Single

Photos: KeystoneCanada

After garnering public interest in 1997 with *A Life Less Ordinary* and *My Best Friend's Wedding*, CAMERON DIAZ dazzled as the object of much male affection in *There's Something About Mary* (1998), then catapulted to fame in 2000 with *Charlie's Angels*. Diaz has also voiced Princess Fiona in all the movies in the *Shrek* dynasty.

"It's been fifteen years now, and I really feel like I'm just understanding it," Diaz told *Vogue* of her career. "You know, the toolbox is just taking shape. And I like that because, if you are lucky, life's a long journey, and I love the learning process. There are so many movies that I still want to make, so many different kinds."

Last year she starred in the romantic comedy *What Happens in Vegas* with Ashton Kutcher, and showed audiences she could tackle drama by playing an emotionally fraught mother in *My Sister's Keeper*, costarring Abigail Breslin and Alec Baldwin.

In her latest, *The Box*, she stars with James Marsden as the other half of a couple who receives a box containing a button: if the cash-strapped pair presses the button, they'll come into some serious cash—but with grave consequences.

Diaz told *ScreenCrave.com* she was attracted to the film because of the existential side of the moral question it posed. "We push a button

every single day in some way or another with the decisions that we make on every level, from the food that we eat to the car that we drive. Every decision we make is pushing a button, and overall, are those decisions ultimately going to lead to our demise? Yes. Can they also lead to us flourishing? Yes. It's a matter of whether we question ourselves on a day-to-day basis, like, 'What does this mean? What does this decision really mean?' That's what I saw in this film when I first read it."

## BULLOCK

BIRTHDAY: July 26, 1964  
 HOMETOWN: Arlington, Virginia  
 SOCIAL STATUS: Married to  
 Jesse James

In the mid-1990s, **SANDRA BULLOCK** became Hollywood's fresh-faced sweetheart after she starred in *Speed* and *While You Were Sleeping*. Fifteen years later, Bullock is Hollywood royalty: her films have topped the box office worldwide, making her one of the richest female celebrities in the world.

Except she's not exactly married to a prince. On July 16, 2005, Bullock said "I do" to *Monster Garage* motorcycle builder and outlaw descendent Jesse James, and the down-to-earth couple spend a lot of time riding dirt bikes and having decidedly low-brow fun.

"Right now, I'm kind of getting into my childhood," 44-year-old Bullock told *Harper's Bazaar*. "I didn't have a teenage or early-20s experience that was free or without worry. I missed the 'screw-everything, have-a-good-time' phase. I was worried that if I didn't stay on track and work, work, work, I was never going to accomplish anything. Now I'm trying to have fun and have the freedom to do nothing."

She does keep busy, though. Bullock recently starred in *The Proposal*, alongside Canadian-born talent Ryan Reynolds, who played the younger assistant to Bullock's character; she proposes to him in an effort to avoid deportation. (Reynolds told *Harper's Bazaar* Bullock is "the ultimate catch, no matter what—age, particularly with her, is completely irrelevant.")

In Bullock's classic comedic form, she also stars in *All About Steve*, in which her lovesick character trails a cameraman (Bradley Cooper) around the country when she realizes that "he's the one." She is also a producer.

Bullock's latest film is the bio-pic *The Blind Side*. It's about Michael Oher, an offensive lineman for the NFL's Baltimore Ravens who rose to football stardom despite an impoverished upbringing. Bullock plays his adoptive mother.

# Malin AKERMAN

**BIRTHDAY:** May 12, 1978  
**HOMETOWN:** Stockholm, Sweden, raised in Toronto, Canada  
**SOCIAL STATUS:** Married to musician Roberto Zincone

Canadian star **MALIN AKERMAN** has no problem being dubbed the next Cameron Diaz. "I do see a similarity between us and I am so flattered," she says. "But I definitely want a wide range of films." But rom-coms have been good to Akerman, whose role in *The Heartbreak Kid* was her big break in Hollywood. She's also starred in *27 Dresses*, *The Proposal*, *Watchmen*, and will also be appearing in the upcoming film *Couples Retreat*.

**UPCOMING FILMS:** *The Bang Bang Club* (2010), *Elektra Luxx* (2010), *Couples Retreat* (2009)

It's a case of déjà-vu for **KRISTEN BELL**. For the second time in her acting career, she'll be escaping relationship woes by whisking away to a tropical island paradise. The actress, who played Veronica Mars for three seasons of the hit TV show, will also be lending her voice in this year's anime flick, *Astro Boy*.

**UPCOMING FILMS:** *Couples Retreat* (2009), *Astro Boy* (voice) (2009), *When in Rome* (2010)

Best known for her character Charlotte York in *Sex and The City*, **KRISTIN DAVIS** epitomizes the classic feminine role. "At one point [I was] offered this part to play a drug-dealing, gun-selling butch lady," says Davis. "I was like, 'Is this a joke? I can't do that!'" Davis is used to relationship-type roles, so she won't be stepping too far out of her comfort zone in *Couples Retreat*, where she'll play one-half of a dysfunctional couple who isn't completely faithful to her husband.

**UPCOMING FILMS:** *Sex and the City 2* (2010), *Couples Retreat* (2009)

**SELECTED FILMOGRAPHY:** *Sex and the City: The Movie*, *Deck the Halls*, *The Shaggy Dog*

# Teen Choice Awards

# Snapped

It's no surprise that *Twilight* was the fan favourite at this year's Teen Choice Awards show in Los Angeles. The favourite vamp film won 11 awards including Best Drama, and stars Robert Pattinson and Kristen Stewart won Best Actor and Actress in a Movie Drama. The 11th annual awards were hosted by the Jonas Brothers, who gave out their iconic surfboard trophies to all the winners.

—Toni-Marie Ippolito

**Robert Pattinson, Kellan Lutz and Jackson Rathbone** pose like the vampire brothers they are in the upcoming *New Moon*. The guys celebrated their film *Twilight* as it cleaned house, winning numerous awards including Choice Movie Drama. Pattinson, of course, won Choice Movie Actor, Drama for his role as Edward Cullen.

**Bandslam star Vanessa Hudgens** may have been the butt of comedian Dane Cook's jokes about some pictures of her, but was all smiles at the event as she supported her longtime beau Zac Efron.

**Zac Efron** took the honours for Choice Movie Actor, Music/Dance for *High School Musical 3: Senior Year*.

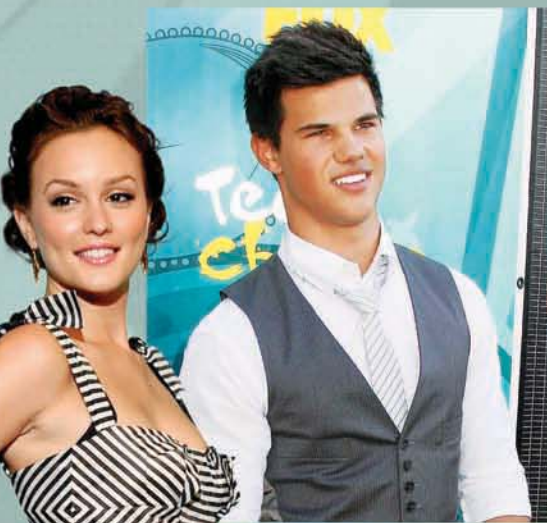

**Kristen Stewart**, who sported her shaggy Joan Jett rock star haircut (she recently filmed a movie with Dakota Fanning based on Jett's first band The Runaways) won Choice Movie Actress, Drama for *Twilight* and Choice Movie Liplock with her costar and rumoured real-life love Robert Pattinson, also for *Twilight*.

**Footloose star Chace Crawford** not only hit it big with a Choice TV Actor, Drama win for *Gossip Girl*, but he also won the affections of *Twilight* star **Ashley Greene**. The two were spotted hooking up in L.A. at the event, and Crawford even dropped her off at the airport, topped with a kiss, for her return to the Vancouver set of *The Twilight Saga: Eclipse*.

**Taylor Lautner** won Choice Movie Fresh Face, Male for *Twilight*. Lautner is pumped up (literally!) in the upcoming *New Moon* as Jacob the wolf, and is ready to work on the third installment of the *Twilight* saga, *Eclipse*, which is set for next spring.

Our favourite *Gossip Girl*, **Leighton Meester**, won for Choice TV Actress, Drama for her role as Blair Waldorf. Watch for Meester to also heat up the big screen in her movies *Date Night* and *The Roommate* next year.

**Miley Cyrus** presented **Britney Spears** with the Ultimate Choice Award. Cyrus, who calls Spears her hero, took home six awards, including Choice Movie Hissy Fit and Actress, Music/Dance in *Hannah Montana: The Movie*, and for her music single "The Climb."

*Transformers* star **Megan Fox** won for Choice Hottie along with *Twilight's* Robert Pattinson. Fox shows no sign of slowing down and is set to sizzle on the big screen next in *Jennifer's Body* as a possessed cheerleader who preys on boys.

# SORORITY ROW

Rumer Willis and Audrina Patridge run from blood and gore in their upcoming horror film

Five girls get themselves in a heap of trouble when they accidentally cause the murder of one of their sisters in a sorority prank. But just when they thought they'd put it out of their minds forever, a mysterious killer threatens to kill them all.

Co-stars Rumer Willis (*The House Bunny*) and Audrina Patridge (*The Hills*) sat down with *Tribute's* Bonnie-Laufer Krebs in Toronto recently to dish on what scares them most and what it was like to work on set with a cast of girls.

**How horror movie-savvy are you? Do you even like scary movies?**

**Patridge:** I loved horror films growing up. I love being scared and jumping, hiding under the covers. It's the kind of thing that when you watch one, you can't sleep alone or be alone. They do really freak me out but for some reason I really love that!

**What was the first movie that you remember that totally freaked you out?**

**Willis:** My dad [Bruce Willis] showed me *The Exorcist* when I was younger. Not the whole thing, just some of it, but I remember being really scared and I made him leave the lights on all night. But I do love going to the theatre and just jumping in fright—and watching the whole audience being scared is loads of fun too.

**Sorority Row is a re-imagining of a film that was made just over twenty years ago. Were you familiar with the original movie?**

**Patridge:** No, when I first read the script I immediately went out and rented the original, which came out in 1983 and is called *The House on Sorority Row*. I thought it was so cool! It was a college movie and it seemed fun, but the *Sorority Row* that we have made now is a little different.

**In what way?**

**Willis:** I had never seen the original, and they told us that they'd prefer that we not watch it once we got on set, but what I like about our film is that even though there are some pretty scary moments, ours has a lot of comedy in it. In a lot of horror movies it's usually just gore and I feel like we have a really good mix.

**Patridge:** Ours is very suspenseful—it keeps you guessing. You don't know who the killer is and, like Rumer said, there are some great comedic moments.

**There are six female leads in this movie. What was that like with all of you on set at once?**

**Willis:** We really bonded. We had a fantastic time making this movie. From the first couple of nights we were all hanging out together, we became friends.

**Patridge:** There was no cattiness or bitching. The first night a few of us went out salsa dancing and got to know each other. Going into it you think, "Oh no, there's going to be six girls, how is that going to work?"

**This film is about a prank that goes really wrong, and Rumer, has Ashton Kutcher ever "Punk'd" you?**

**Willis:** (laughs) He actually tested one out on me once, but he never really

made me the victim of his *Punk'd* antics. I always wanted him to but he has a rule: no family members get punk'd. I have to say my whole family just likes playing tricks on each other so we have a good time, although we all have to keep on our toes.

**Can we expect some good kills and good gore in this movie?**

**Patridge:** For sure, you will not be disappointed! There's loads of good gore. You're going to jump and have a great time. It's funny, because when you are filming it you don't realize how scary it's going to look.

**Willis:** Yeah, so when you see it on the screen you are like, "Wow! This is pretty scary stuff."

## MCADAMS

BIRTHDAY: November 17, 1978  
 HOMETOWN: London, Ontario, Canada  
 SOCIAL STATUS: Single

London, Ontario native **RACHEL MCADAMS** once turned down a Bond-girl role in *Casino Royale* because she wanted to focus on “other projects.” “I’m not going to make movies just to make movies,” McAdams admitted to *Elle*. “I have to be passionate about it. And at the same time, I can get very distracted when I’m working, and I like to get back to my life a lot.”

McAdams’ star rose quickly when she appeared in a barrage of blockbuster films that included her first major role in *Mean Girls*, in which she played a cruel high-school clique leader training the unpopular character of Lindsay Lohan to be mean. This afforded McAdams the opportunity to play one of her most memorable roles yet, in the heart-wrenching love story *The Notebook*, costarring Canadian hunk Ryan Gosling (with whom McAdams had a long-term romance).

But romance aside, McAdams pushed her abilities as an actress to play the action heroine in *Red Eye*, and tackled comedy once again in the smash hit *Wedding Crashers*. Next, she proved she could hold her own in a stellar ensemble cast including Diane Keaton, Claire Danes, Sarah Jessica Parker and Luke Wilson in *The Family Stone*.

“When *Wedding Crashers* came out, everyone was hyped up, calling Rachel the new It Girl,” Tom Bezucha, director of *The Family Stone*, told *Elle*. “I felt anxious about that because it’s so diminishing to her talent. You get the impulse—you want to put her in everything. But her selectiveness shows wisdom greater than her years about her place in the industry. She’s very purposeful in sidestepping Hollywood. She has the opportunity to be this huge, huge movie star, but in her heart she’s a character actress.”

This year, she also lit up the screen as the luminous Claire Abshire in the epic romance *The Time Traveler’s Wife*, and will show her grit in *Sherlock Holmes* this December as Irene Adler, the only woman to ever get the better of the famed detective, who is played by Robert Downey Jr.

# Jennifer ANISTON

BIRTHDAY: February 11, 1969  
 HOMETOWN: Sherman Oaks, California  
 SOCIAL STATUS: Single

Photos: KeystoneCanada

**JENNIFER ANISTON** struggled in the early '90s to make it as a television star, and briefly considered giving up acting after participating in one too many cancelled shows. Then *Friends* came her way, and Aniston became a television sweetheart: she won an Emmy, a Screen Actor's Guild Award and a Golden Globe, and played the iconic role of Rachel for a decade.

She then dabbled with roles on the big screen, and found success with *The Object of My Affection* (1998) and *Office Space* (1999). Her next accomplishment was to land Hollywood heartthrob Brad Pitt. The two were married in 2000, but split in 2005 amid rumors of Pitt's infidelity with Angelina Jolie.

Having to go through the breakup in public wasn't something Aniston wanted. "I wish it weren't in front of the world. I try really hard to rise above it," she told *Vanity Fair*. And rise above it she did. At 40, she's hotter than ever (did we mention that now-famous nearly nude *GQ* cover?) and has had a few high-profile relationships—with actor Vince Vaughn, model Paul Sculfor and singer John Mayer.

After starring in a slew of movies, Aniston got her first major hit with 2008's *Marley & Me*, opposite Owen Wilson, which was a holiday hit. She then followed up with *He's Just Not That Into You*, as part of an ensemble cast including Ben Affleck, Bradley Cooper,

Scarlett Johansson, Jennifer Connelly and Drew Barrymore.

Aniston's upcoming movies show her evolution as a talented and diverse actress. They also happen to be with some of the hottest leading men. In her next film, *Love Happens*, costarring Aaron Eckhart, Aniston plays a florist who struggles with her attraction to a man (Eckhart) she meets at a seminar. She'll also star with Jason Bateman in *The Baster* and with Gerard Butler in *The Bounty*.

LOVE ALONE WON'T PROTECT YOUR GRADE 8 DAUGHTER  
FROM CERVICAL CANCER

You don't want the daughter you love to grow up and get cervical cancer. HPV is the main cause of cervical cancer and Ontario's Grade 8 vaccination program will help protect her from the types of HPV that cause this terrible disease. As 3 out of 4 adults will get some form of HPV at least once in their lifetime, you'll want to make sure your daughter completes the 3 shots she needs. After all, it's easier to prevent cervical cancer now than cure it later.

**CATHERINE ZETA-JONES** – LIBRA, SEPT. 25, 1969, SWANSEA, WALES  
 Libra ladies tend to be classic stunners with brains, and Catherine is no exception. Her talent is undeniable, being a trained singer and dancer and Academy Award-winning actress. Like many of her sign, she has a gritty side under the glam facade and a reputation for being a prima donna. Her chart shows hard work ahead, and she will be torn between caring for her two children and her career. They and husband Michael Douglas may not see much of her, as she is slated to appear in at least three major productions through 2010.

# STAR STRUCK

*What the stars have planned for you*

 **ARIES** (MAR. 21 - APR. 20)

Take a step up or step down? Postpone that and any other major decisions now. Instead, just keep fine-tuning that ideal career scenario, and by month's end you'll know what direction you want it to take. Meanwhile, friends are supportive and there could be a new romance ahead.

 **TAURUS** (APR. 21 - MAY. 21)

Get ready to star in your own true-life romance. Love scenes heat up and a call for commitment may take a surprising turn. Your career ambitions are stalled, though, and there's not much you can do but wait it out. Your big comeback is due—and soon. Enjoy a weekend getaway late in the month.

 **GEMINI** (MAY 22 - JUNE 21)

Instead of back-to-the-grind, you're just puttering around, wasting time. Don't fight it: hit the links, try a new wardrobe, whatever you enjoy. Doing so puts you on your game to re-enter the rat race next month. As this month wanes, a burst of ambition plus a desire for self-improvement could prompt you to sign up for a night class.

 **CANCER** (JUNE 22 - JULY 22)

Your favorite things come into focus: home and those near and dear. Lend a hand to someone younger heading off to school. You know just the right words to boost anyone's self-esteem. Mid-month, a hobby or pastime shows promise of becoming a cash cow. For now, just explore the new pastures it opens up.

 **LEO** (JULY 23 - AUG. 23)

Venus in your sign until the 19th helps you apply the Law of Attraction—which means you can draw in a new job or other opportunity, but defer from making any life-altering decisions until next month. By month's end, though, you're ready to pull together.

 **VIRGO** (AUG. 24 - SEPT. 23)

Saturn, planet of life lessons, is about to leave your sign. Before it does there could be some drama, including a decision to cast a new romantic lead. Some extra expenses could arise, especially if you have children. But after the 20th, you're able to put some of your know-how to profitable use.

 **LIBRA** (SEPT. 24 - OCT. 23)

Summer's end, and it's back to work. The pace will be just short of frantic, and you'll have to make an extra effort to find some downtime. The bread you earlier cast upon romantic waters comes in at full tide. Someone who was previously a friend could want to switch roles. If the affair looks too complicated, though, walk away.

 **SCORPIO** (OCT. 24 - NOV. 22)

The career stress eases, and you finally have time to think. Use it to rewrite the scenario of your life more to your liking. Clarify your goals and be ready to seize a sudden opportunity. A showdown with someone close may be inevitable late in the month. But when it's over, at least you'll know where you stand.

 **SAGITTARIUS** (NOV. 23 - DEC. 21)

Single-minded Saturn, a tough coach, lingers in your career house. Get ready to shoulder more responsibility, like it or not. But if you haven't found your ideal niche yet, it could happen this month. Once you hear from faraway friends, you'll enjoy taking a spur-of-the-moment trip late in the month.

 **CAPRICORN** (DEC. 22 - JAN. 20)

This is your month to reap the fruits of past labors. You may finally get the rewards you crave. Just keep your options open and delay signing any big contracts until next month. The pace of your social life picks up, and your charm wins the day. A sudden attraction is riveting at month's end.

 **AQUARIUS** (JAN. 21 - FEB. 18)

You don't like to think about money. But a long-term problem may have to be addressed and you'll find the devil is in the details, such as sticking to a budget and saving receipts. Meanwhile, Venus adds a romantic touch to your house of partners, with Mars providing a welcome undercurrent of passion.

 **PISCES** (FEB. 19 - MAR. 20)

You have energy for the game, the pace of which quickens this month. Slow down and double-check your work, though, lest an error trip you up. Venus brings helpful people your way most of the month. And you and someone close discover few words are needed to reach a complete understanding.

# MICHAEL JACKSON'S POPULARITY RISE\$!

It has been almost three months since Michael Jackson died, and while family members of the late pop star are still at war with the executors of his estate and questions about paternity of his children still loom, there's no doubt that the beloved King of Pop is more popular dead than in the last few years of his life.

According to reports, Jackson's estate has already earned an estimated \$100 million through a film deal (which will also include the rehearsal footage of his final days) and various merchandising contracts, and the executors expect another \$100 million to roll in by the end of the year. This will undoubtedly clear out Jackson's estimated \$400 million debt, incurred while he was alive due to his notorious free-spending ways. "Clearly that's a new record for estates that

likely will not be broken," said Jackson's lawyer, John G. Branca, to the *New York Times*.

In fact, many speculate that at this rate Jackson's estate will roll in more money each year than the late King of Rock 'n' Roll, Elvis Presley's, which generated \$55 million last year.

But the Jackson family is still arguing over control of Michael's estate—including Katherine Jackson, who was recently awarded full custody of Jackson's children, Paris, Prince Michael and Blanket, and who is a beneficiary of 40 per cent of her son's estate.

Jackson's estate has been valued at several hundred million dollars, which includes a 50 per cent stake in Sony/ATV, a music publishing partnership that includes the rights to the Beatles catalog, his own music catalog and Neverland Ranch.
